

User Stories:

- As a rescue advocate, I want to create detailed profiles for special needs pets so that they are presented in a positive and informative way to potential adopters.
- As a foster caregiver, I want to connect with approved adopters via the web app so that I can educate them about the pet's unique needs before they commit.
- As a rescue volunteer, I need an option to request donations or sponsorships for medical expenses so that more special needs dogs can receive proper care before adoption.
- As a farmer, I want to have a larger selection of animals/breeds that can be chosen from and be able to easily search through them so that I can easily find a match.
- As a father, I want to find a pet that is friendly with children so that my kids can be able to play with them.
- As a customer, I want to have a quick and easy experience so that I won't have to take my focus off work and my family.
- **As a potential pet adopter**, I want to create a profile and save pets I'm interested in so that I can revisit them later when making a decision.
- **As a pet owner looking to rehome a pet**, I want to create a listing with pictures, a description, and an adoption fee so that I can find a responsible adopter.
- **As a potential adopter**, I want to search for available pets by filters such as breed, age, size, and location so that I can find a pet that matches my lifestyle.
- As a senior looking for companionship, I want to easily find a low-maintenance pet on the adoption website so that I can have a loving companion that fits my lifestyle.
- As a first-time online pet adopter, I need a simple and guided application process so that I don't feel overwhelmed and can complete my adoption with confidence.
- As an elderly pet owner, I want access to resources and a community of other adopters so that I can get support and advice on caring for my new pet.
